

Policy Statement
Lake County Addressing

Section III(B)2 of Commissioner Resolution 04-01 states “ The Landowners along thorough fares that access three or more residences, businesses etc. shall name and properly sign the road.” With this in mind, the following policy is being created to keep a consistent and updated addressing database to avoid confusion in situations such as the event of an emergency.

Once the county has been alerted that a road meets the criteria under Commissioner Resolution 04-01 for road naming, the land owners with addresses on that road will be notified via 1st class mail of the requirement to name the road. If after 60 days the landowners have not taken the necessary steps in naming the road, a certified letter will be sent notifying the landowners of a road name that has been assigned by the County Commissioners.

Approved and adopted this 6 day of August, 2010.
